SPONSORSHIP OPPORTUNITIES

A Commitment TO SAFETY

The Iowa-Illinois Safety Council is a 501(c)3 non-profit organization supported by approximately 1,000 members and locations throughout Iowa and Illinois. IISC provides a wide variety of safety information, seminars, and services to members in an effort to reduce accidents or injuries and the extraordinary costs associated with them.

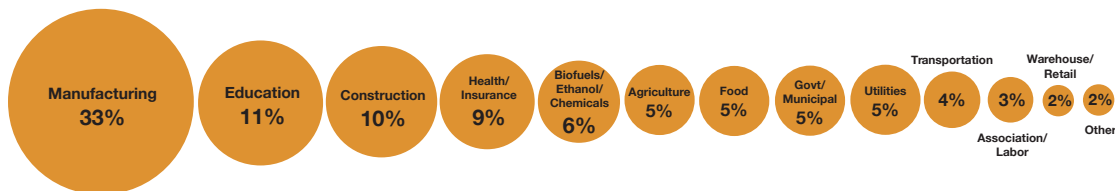

Our annual Professional Development Conference has been going strong for 66 years and is by far the best value of any safety conference in the Midwest. Boasting regular attendance and vendor participation of 700+, this conference presents the latest in safety, health and environmental information technology, seminars for all levels of safety knowledge, as well as nationally recognized speakers and local safety experts. Opportunities for networking with your peers is unsurpassed!

IISC wants to furnish you with the ideas and strategies, educational tools and products, and up to date information that will make your business function more effectively, be more profitable and productive, while maintaining a safer and healthier environment.

Please consider becoming a sponsor TODAY!

IISC'S 67TH ANNUAL PROFESSIONAL DEVELOPMENT CONFERENCE & EXPO
USE #IISCPDC2020 WHEN POSTING OR SHARING ABOUT THE CONFERENCE!

WEDNESDAY TECHNICAL SESSIONS | APRIL 22, 2020

Priced per session - Must select session at time of registration
Class sizes are limited - Lunch included for all attendees (12:00 pm)

8:00 AM - 12:00 PM

Cost: \$200 Member | \$350 Non-member

AM-A: Essentials of Healthy Work Design: A Total Worker Health Approach to Worker Wellbeing

Diane S. Rohlman, PhD - Professor, Occupational and Environmental Health & Director of the Healthier Workforce Center of the Midwest - University of Iowa - Iowa City, IA
Laura Keniston - Outreach Coordinator
University of Iowa - Iowa City, IA

Companies struggle to address the safety and health consequences of an increasingly stressed, obese and older workforce. In this interactive workshop, learn how work organization and environment can promote employee wellbeing and discover how to evaluate current needs and initiatives.

Cost: \$200 Member | \$350 Non-member

AM-B: Competent Person Fall Equipment Inspector Training

Chris Dickey - Business Development Manager
Process Marketing Group - Urbandale, IA
Competent Equipment Inspector Training course is designed for those individuals who will be responsible for inspection and documentation of all Fall Protection equipment on either a jobsite, department, or organization, whether Construction (OSHA 1926), General Industry (OSHA 1910), Maritime (OSHA 1915, 18) or other regulations. This training is useful for environments that have repair centers or "tool rooms" that issue the equipment to projects or personnel, or the Competent Person looking to fine tune their inspection knowledge and techniques. Participants will receive a wall certificate and photo wallet card and Inspector Workbook.

Cost: \$200 Member | \$350 Non-member

AM-C: Surviving the Violence

Dutch Geisinger - Executive Director
Safeguard Iowa Partnership - Pleasant Hill, IA
This is an active shooter tabletop exercise that will provide partner organizations to discuss their planning efforts and review preparedness for this type of disaster situation. This will provide participants to learn from each other, as well as subject matter experts, about considerations that may improve their preparedness posture.

1:00 - 5:00 PM

Cost: \$200 Member | \$350 Non-member

PM-A: Functional Ergonomics: The Basics & Beyond

Scott Ege, PT, MS - President
Ege WorkSmart Solutions PC - Rockton, IL
Mindy Oxenford, PT, DPT - Director of Outpatient Services
Millennium Therapy/E3 - Des Moines, IA
Learn basic principles of ergonomics and gain an understanding of ergonomic issues that affect the workplace. Topics includes risk factors that contribute to MSDs, general ergonomic principles, design guidelines, and application. Be prepared for an interactive discussion using an experiential learning style!

Cost: \$280 Member | \$430 Non-member

PM-B: NFPA 70E Electrical Safety Training

Jason Wolf - Safety Training Manager
The ESCO Group - Marion, IA
This class will cover the details of NFPA 70E – 2018 Standard for Electrical Safety in the Workplace. This class is appropriate for those with responsibility for installation or maintenance of electrical systems, and others with responsibility for electrical safety.

Cost: \$200 Member | \$350 Non-member

PM-C: Understanding Human Error Reduction

Ron Pryor, CSP - Senior Consultant
Fisher Improvement Technologies, Inc. - Lodi, WI
Gain an understanding of the fundamental science of why and how people make errors, as well as techniques and tools for reducing the probability for errors and their resultant outcomes.

COMBO DISCOUNT:

**Register for one 4-Hour AM and
one 4-Hour PM session and save \$50!**

(This discount is only valid for the same person attending both sessions and registration for both classes must be done at the same time. Discounted registration can not be split between two people.)

8:00 AM - 5:00 PM

Cost: \$350 Member | \$650 Non-member

8HR: Fundamentals of Rigging

Jim Wojcikiewicz - District Sales Manager & Trainer
The Crosby Group - Rockport, IL

This course discusses the fundamentals of rigging. It is designed for individuals rigging and handling loads in construction, manufacturing, utilities, and various environments that must adhere to the OSHA regulations. The ASME (American Society of Mechanical Engineers) and Crosby recommendations are heavily addressed as well. The main topics discussed will include risk management and the basic rigging plan, basic rigging principles when using wire rope, chain and synthetic slings in conjunction with Crosby hardware, rigging triangle considerations, rigging hardware and sling application.

USE #IISCPDC2020 WHEN POSTING OR SHARING ABOUT THE CONFERENCE!

7:00 AM REGISTRATION AND EXHIBITS OPEN
8:00 AM OPENING AND ANNUAL MEETING

8:15 - 9:15 AM - OPENING KEYNOTE "Nice Bike"

MARK SCHARENbroICH

Scharenbroich & Associates
Minneapolis, MN

Mark is known as a top performer in the speaking industry for his authentic delivery, his talent for delivering unique stories and his comedic timing. His audiences remember his "Nike Bike" presentation for years after it is delivered.

Mark's core messages have always been about connecting. Sometimes it was in schools to help teachers connect to their students, or in organizations and businesses to help team members feel truly connected to their core values and their customers.

Mark Scharenbroich's career as a motivational speaker began with the Jostens award-winning film, "The Greatest Days of your Life...(so far)" which featured Mark speaking to high school students about engagement. It was viewed by millions of high school students worldwide in the 1980s.

Mark is often times invited to speak at conferences by business leaders who heard him speak years ago in their high schools . . . and still remembering the powerful impact of his presentation.

He is an award-winning keynote speaker, winner of an Emmy Award® as writer/producer for an ABC-TV special, and recipient of several international film awards.

In 2003, Mark was inducted into the National Speaker's Association prestigious Hall of Fame — an honor bestowed upon less than 5% of professional speakers worldwide. Fellow inductees include President Ronald Reagan, General Colin Powell, Zig Zigler and Ken Blanchard.

9:15 - 10:15 AM | BREAK W/EXHIBITORS

10:25 - 11:20 AM | THURSDAY, APRIL 23, 2020

INTERMEDIATE

1A: THE PROFESSOR AND THE PENGUIN

Nichole Harken - Director of Internships & Instructor, Department of Communication & Media - University of Northern Iowa Cedar Falls, IA

Matt Harken - Senior Safety Specialist - Growmark
Nikki and Matt are a dynamic husband/wife duo who inspire with equal parts humor, enthusiasm, and learning. Nikki will teach best practices in creating presentations and Matt will share tips on how to sell trainings to employees.

INTERMEDIATE

1B: NAVIGATING THROUGH OCCUPATIONAL HEALTH & SAFETY MANAGEMENT SYSTEMS

Amy Timmerman - Safety Consultant
Falcon Safety - Saint Charles, IL

An Occupational Health & Safety Management System provides an overall blueprint to prevent injuries and illnesses. Learn about the different OH&S MS standards available, the difference between them, and how they can help your organization move to the next level.

INTERMEDIATE

1C: GOT CRANES? GET TRAINING!

Margret Meade - Safety Outreach Coordinator
Iowa Association of Municipal Utilities - Ankeny, IA

Do you have overhead cranes and still question whether or not your operators are trained properly? Attend this session for those answers.

BEGINNER

1D: OSHA UPDATE

Brian Bothast - Lead Safety & Occupational Health Specialist
U.S. Dept of Labor, OSHA - Peoria, IL

This session will address both the National and local emphasis program areas. Brian will also include some of the latest letters of interpretations and answers OSHA has given to frequently asked questions. If you are interested in what OSHA is focused on in 2020, then this is the session for you.

BEGINNER

1E: GOT LEAD? WORK SMART!

Kathy Leinenkugel - Program Manager, Occupational Health & Safety Surveillance - Iowa Department of Public Health - Des Moines, IA

In 2018, roughly 1,140 Iowa adults had blood lead levels above the current reference level. Learn who is being exposed, who may not be tested and why IDPH is concerned about lead exposure in young adults and their families.

BREAKOUT SESSIONS | THURSDAY, APRIL 23, 2020

BEGINNER

1F: WORKERS' COMP TRACK: WORKERS' COMP UPDATE

Michael J. Lunn - Deputy Workers' Compensation Commissioner
Division of Workers' Compensation - Des Moines, IA
This presentation will inform and provide education to Case Managers, Nurses, Insurance Adjusters, Attorneys and other professionals on the current status of Iowa's Workers' Compensation Laws, the impact of the 2017 legislative changes, and a general overview of recent Agency decisions.

11:30 AM - 12:25 PM | THURSDAY, APRIL 23, 2020

INTERMEDIATE

2A: BATTLING HUMAN ERROR: HOW LATEST NFPA STANDARDS AND PPE BEST PRACTICES COMBAT ERROR, MITIGATE THERMAL HAZARDS AND IMPROVE SAFETY CULTURE

Scott Francis - Technical Manager
Westex by Milliken - River Forest, IL
Managing human performance/error as a unique control that is complementary to the hierarchy of risk controls has shed new light on human error and PPE program "best practices" to significantly reduce likelihood and severity of injury. Learn about human performance tools, modes and "best practice" PPE programs that reduce injury risk and improve safety culture.

INTERMEDIATE

2B: OVERVIEW OF MACHINE SAFEGUARDING HIGHLIGHTS

Roger Harrison - Director of Training
Rockford Systems LLC - Rockford, IL
This fast-paced "Overview of Machine Safeguarding Highlights" is based on the recently updated ANSI B11.19-2019. Point of Operation and Perimeter Guarding, Optical Safeguarding Devices; Light Curtains, Area Laser Scanners, AOPD Lasers for Hydraulic Press Brakes, Shields for Cutting/Turning Machines, PLC controls and electrical updates for older machines, (disconnects, starters, emergency-stops, interlocks) and the importance of Risk Assessments (ANSI B11.0-2019) for each machine to develop an overall "Safeguarding Strategy".

INTERMEDIATE

2C: LIFT IT RIGHT! RIGGING BASICS

Margret Meade - Safety Outreach Coordinator
Iowa Association of Municipal Utilities - Ankeny, IA
In this presentation, you will learn how to choose proper sling angles and combinations according to the load to be lifted. You will also learn to do a proper inspection of your slings and below the hook lifting devices.

BEGINNER

2D: HAZARD CONTROL AWARDS OVERVIEW

Brian Bothast - Lead Safety & Occupational Health Specialist
U.S. Dept of Labor, OSHA - Peoria, IL
In this session participants will learn how other facilities addressed a wide variety of hazards in their workplaces.

BEGINNER

2E: SIMPLIFY AIR PERMITTING BY USING THE SMALL UNIT EXEMPTION

Gary Douglas - Principal
Douglas Environmental Consulting, LLC - De Witt, IA
One of the most powerful tools that IDNR has provided to simplify air construction permitting is the Small Unit Exemption (SUE). Learn eligibility requirements for an SUE, how to prepare an SUE, how to set limits for an SUE, and SUE tracking requirements.

INTERMEDIATE

2F: WORKERS' COMP TRACK: WORKPLACE SAFETY AND MARIJUANA

Dr. Jeff Henson, MD, MS, MPH, CMRO
MercyOne Occupational Health - Des Moines, IA
You won't want to miss this session to learn about the latest on this important and evolving topic. Attendees will learn: what is marijuana and what is medical cannabis; The Medical Cannabidiol Program in Iowa and how it impacts employers; The current regulations on marijuana and the workplace and how medical cannabis may impact policies and procedures in a Drug-Free Workplace. You will also be able to identify the uses of CBD oil and the potential impact on drug test results.

12:25 - 1:40 PM | LUNCH AND TIME W/EXHIBITORS

1:45 - 2:40 PM | THURSDAY, APRIL 23, 2020

INTERMEDIATE

3A: SAFETY: SELLING THE INVESTMENT TO MANAGEMENT

Chris Murphy - Senior Risk Management Consultant
Nationwide - Des Moines, IA
Do you ever find it challenging to have management "buy in" to safety enhancements in the workplace? It may be that a change of approach is needed. In this session, we'll understand the different motivations of managers and discuss how you can meet your goals through effective written proposals and presentations, seeing the complete business perspective and not just safety/compliance, and creating effective stewardship reports to help build your credibility with your organization's decision makers.

BEGINNER

3B: USING ENGAGEMENT TO POWER YOUR SAFETY PROGRAM

Doug Jansen - Safety Manager
Atlantic Bottling Company - Des Moines, IA
Learn about cost effective methods to use with employees to increase their engagement in your safety program. Many companies focus on safety training and forget to focus on activities that keep employees energized and engaged.

BREAKOUT SESSIONS | THURSDAY, APRIL 23, 2020

BEGINNER

3C: SLEEPY, STONED OR SAUCED

Byron Frick, CPCU, ARM - Senior Manager - Loss Control
IMT Insurance - West Des Moines, IA

This session promises to educate and entertain! Have you ever wondered how fatigue, prescription and recreational drugs, and alcohol affect your fine and gross motor skills? Come learn and then see for yourself as we have volunteers (maybe you) walk the line and play games while wearing a variety of simulation goggles.

INTERMEDIATE

3D: WOMEN AND WORK: SAFETY, HEALTH, AND WELLBEING

Diane S. Rohlman, PhD - Professor, Occupational and Environmental Health & Director of the Healthier Workforce Center of the Midwest
University of Iowa - Iowa City, IA

Although workplace hazards are the same for both men and women, appropriate protection and prevention measures may vary. Protecting workers relies on implementing solutions that address work organization, policies, and the work environment, along with engagement of the workforce.

BEGINNER

3E: SPILL RESPONSE, WASTE MANAGEMENT, AND SATELLITE ACCUMULATION

Don Gansert - Managing Consultant
Trinity Consultants - Lenexa, KS

This session will focus on EPA's hazardous waste generator improvement rule that became effective in Iowa in May 2017. The session will review the Emergency Notification for the Contingency Plan for large quantity generators, Waste Determinations, and container management for accumulation and satellite accumulation containers.

INTERMEDIATE

3F: WORKERS' COMP TRACK: WHAT ARE THE EMPLOYER'S RIGHTS AND RESPONSIBILITIES IN DEALING WITH MARIJUANA IN THE WORKPLACE?

Michael Hyatt - HR Government Affairs Director - MRA - Plymouth, MN
Chris Scheldrup - Attorney - Scheldrup Blades - Cedar Rapids, IA

This session will discuss the current state of the law in Iowa and Illinois regarding medicinal and recreational marijuana use and will cover lawful ways that exist to determine whether an employee is under the influence of marijuana at work. Michael and Chris will discuss to what extent and under what circumstances can an employer prohibit the use of marijuana by employees at work or outside of work and explore what the current state of the law is in regards to workers' compensation if an employee tests positive for marijuana at work at the time of an injury. This session will also look at what should be included in employee handbooks to address an employer's policy in regard to marijuana use.

2:45 - 3:15 | BREAK W/EXHIBITORS

3:20 - 4:15 PM | THURSDAY, APRIL 23, 2020

BEGINNER

4A: INDUSTRIAL HYGIENE BASICS

Christine Reed, MS, CHCM

Director of Program Development & Training

Iowa-Illinois Safety Council - West Des Moines, IA

Most people unfamiliar with Industrial Hygiene think it is associated with dental care or something only highly trained people can conduct. Neither of these is correct! Come and discover how simple the process can be for you to apply this practice at your organization.

INTERMEDIATE

4B: EVACUATION BEST PRACTICES

Dutch Geisinger - Executive Director

Safeguard Iowa Partnership - Pleasant Hill, IA

Poor planning can turn any emergency situation into a catastrophe. According to the Department of Transportation, more than 22,000 people died worldwide during 376 various emergency evacuations. Though many According to this study, a large percentage of those deaths were the direct result of inadequate planning, training, and testing of their emergency planning procedures. During this training, Mr. Geisinger will discuss some of the various functional considerations that we should consider during our emergency planning processes and will focus on national best practices for planning for evacuations within our own organizations.

ADVANCED

4C: HOP DONE RIGHT - HOW TO GET RESULTS FROM YOUR HUMAN & ORGANIZATIONAL INTEGRATION

Ron Pryor, CSP - Senior Consultant

Fisher Improvement Technologies, Inc. - Lodi, WI

More and more organizations are initiating error reduction campaigns, but many struggle with achieving different results. Learn proven methods for driving HOP concepts and techniques into the day-to-day work within your organization.

BEGINNER

4D: GETTING CONFINED SPACE ENTRY RIGHT EVERY TIME

Brian Bothast - Lead Safety & Occupational Health Specialist

U.S. Dept of Labor, OSHA - Peoria, IL

In this session Brian will address both the general industry and construction confined space entry standards and discuss how several confined space entries resulted in fatalities. Participants will become familiar with several issues OSHA inspectors have discovered when investigating confined space entries.

BEGINNER

4E: AIR PERMITTING IN IOWA: A REVIEW OF THE BASICS AND AN INTRODUCTION TO EASY AIR

John Curtin, P.E. - Environmental Engineer

Ashley Dvorak - Air Quality Environmental Engineer

Iowa Department of Natural Resources - Des Moines, IA

Unsure if your facility's emergency engine or paint booth needs an air permit? Concerned because you don't know when a permit needs to be modified or if it needs to be renewed? How long does it take to get an air permit? This is the session for you if you want (or need) to learn the basics of air permitting in Iowa. Permit engineers from the Iowa DNR's Air Quality Bureau will cover the following topics: common permit exemptions, some streamlined permit options, standard permits, and modification requirements. We also will present an overview of Iowa EASY Air, the new electronic air permit application system. Attend this session to obtain straightforward guidance so your facility stays in compliance!

BEGINNER

4F: WORKERS' COMP TRACK: HEALTHCARE COSTS VS WORKERS' COMP COSTS (Panel)

Gary Uhl - Vice President of Operations - Sedgwick - West Des Moines, IA

Matt Tissler - Client Services Manager - Sedgwick - West Des Moines, IA

Jen Pille - Director, Claims - Sedgwick - West Des Moines, IA

Ryan Weldin - Claims Manager - Sedgwick - West Des Moines, IA

Healthcare on the whole is up, but work comp rates have not increased at the same rate. This session will be an interactive panel type discussion with Q&A with members of Sedgwick, the work comp claims administrator for the State of Iowa.

“Safe 4 the Right Reasons”

DALE LESINSKI

Vice President of Sales & Training
DiVal Safety Equipment
Buffalo, NY

Safe 4 the Right Reasons takes a basic look at our human nature and breaks down why we put ourselves at risk. The fact is, as humans, we are not wired to be safe. That's why the conventional approach to employee safety often delivers meager results.

Dale Lesinski is the Vice President of Sales & Training for DiVal Safety Equipment in Buffalo NY. DiVal Safety is an International leader in safety supplies & training. Dale Lesinski has been a Keynote & featured speaker at the NSC (National Safety Council) & OSHA VPPPA National and Regional Conferences as well as several local and regional Safety Associations. He also is a frequent guest lecturer for the Undergraduate and MBA programs at several Western New York Colleges and Universities. Dale has earned the distinction of a master communicator through his ability to incorporate his areas of expertise in sales, marketing, communication, presentation skills, public speaking, athletic coaching and adult learning.

As a motivational speaker and safety trainer, Dale has impacted tens of thousands and has been recognized as a leader in the safety field. He has a unique ability to effectively deliver his message to it is relevant and personal for each attendee.

INTERMEDIATE

5A: TELL ME A STORY! (TEACH, USING THE POWER OF “ORALITY”)

Joe Korpi, CSP - Manager, Safety & Health
Renewable Energy Group - Ames, IA

Forget technology! Transform your safety training with the time-tested method of Orality to bring simple safety stories to “life” for your audience. Orality involves carefully crafted stories, insightful questions to help your audience apply the story's truths, and one final powerful step!

INTERMEDIATE

5B: RISK ASSESSMENT - ADDING THE THIRD DIMENSION

Gary A. Higbee, EMBA, CSP - President & CEO
Higbee & Associates - Johnston, IA

Risk assessment tools are common in the EH&S field, but do traditional approaches to this process include all factors? The initial focus on management systems is obviously proper and correct, but if this analysis is expanded to include human error or the possibility of human error, it can become much more robust and effective.

INTERMEDIATE

5C: LEVERAGING TECHNOLOGY TO REDUCE RECORDABLE INJURIES: AN EARLY INTERVENTION APPROACH

Doug Jansen - Safety Manager
Atlantic Bottling Company - Des Moines, IA
John Kruzich, MS, OTR/L - Workers' Compensation Program Manager
Athletico Physical Therapy - Ankeny, IA

Musculoskeletal disorders cost employers nearly 45 billion dollars per year in direct and indirect costs yet are largely preventable. This presentation will discuss an early detection program designed to significantly reduce musculoskeletal injuries at the workplace and improve the overall health of the workforce.

INTERMEDIATE

5D: NFPA 70E: PROPOSED CHANGES TO THE NFPA 70E - 2021 EDITION

Jason Wolf, CSP, CEMSC - Safety Training Manager
The ESCO Group - Marion, IA

This presentation will provide a preview of the proposed changes to the NFPA 70E - 2021 edition, which will be released later this year, and how the changes may affect your electrical safety program.

ADVANCED

5E: SAFE LIFTING/BACK SAFETY

Gary Salvador - Owner/Safety Instructor
Safety First Training Systems, Inc. - Bartlett, IL

Safely lifting and moving materials are an important aspect of most jobs. Doing this task correctly will prevent an injury from occurring so we can live our lives at work as well as at home to the fullest.

BEGINNER

5F: WORKERS' COMP TRACK: MENTAL HEALTH IN THE WORKPLACE

Gary W. Rasmussen, M.S. - Director of Education
National Alliance on Mental Illness - Greater Des Moines
Des Moines, IA

Americans are among the most stressed out populations in the world, ranking 20% higher than the world average of 35%. For every \$1 invested in mental health education in the workplace, there is a return of \$10 in improved health and productivity. This session will help you understand what mental illness is, what it isn't and how your employees are impacted. During this session we will discuss Types Of Mental Illness, Prevalence, Causation, Myths vs. Facts, Communication Do's & Don'ts and Self-Care.

10:45 - 11:40 AM | FRIDAY, APRIL 24, 2020

ADVANCED

6A: WELDING SAFETY - PROTECTING WELDERS FROM COMMON PITFALLS IN WELDING

Amy Roosa - Safety Specialist
Airgas - Cedar Rapids, IA

This presentation is designed to walk the students through the different safety hazards welders are exposed to on the job such as Respiratory Hazards, ergonomics and more and how the EH&S professional can help reduce the workers' exposure through the Hierarchy of controls.

ADVANCED

6B: HUMAN FACTORS & ENGINEERING

Gary A. Higbee, EMBA, CSP - President & CEO
Higbee & Associates - Johnston, IA

Gary's early career included working on the factory floor, two years in the military and then a series of assignments including expeditor, scheduler, mechanical engineering, process engineering, product engineering and safety & Environmental engineering. He loved the idea that he could help improve quality, increase production and do it safer but it didn't quite work out that way. Injuries happened in spite of the engineering effort. In recent years the number of deaths at work has been rising. There has to be some way to curb the trends by combining engineering, training, process design and human factors. That's what this session is all about. It's just a start but a start it is.

BEGINNER

6C: SAFE4 CULTURE CHANGER PROGRAM

Dale Lesinski - Vice President of Sales & Training
DiVal Safety Equipment - Buffalo, NY

This session will cover several key components to Culture change and identify the most common mistakes. Many companies desire to have a positive safety culture and eliminate injuries but they just don't know how to do it. Therefore, they default into conventional means and hope to get lucky. "The Safe 4 Culture Changer Program" delivers what to do and how to do it. Attendees will walk away with fresh ideas and new approaches to improving their safety culture.

BEGINNER

6D: ELIMINATING THE "DARTBOARD" SAFETY COMMITTEE MEETING

Sarah Olson - Safety Consultant

Safety Management Services Company - Dubuque, IA
Do you leave your safety committee meetings with a list of maintenance items to be accomplished before the next month? Do members only sign up for an hour off the floor? If so, it's time to utilize an effective agenda, training, and inspections to get the most out of your safety committees. Implementing these techniques will continue to advance the safety culture in your organization.

BEGINNER

6E: VISUAL LITERACY FOR SAFETY: RESULTS FROM PILOT STUDY

Joy Inouye - Research Associate - Campbell Institute
National Safety Council - Itasca, IL

The concept of visual literacy has been around for decades, and has typically been used in developing better teaching and learning techniques in the classroom. Recently however, visual literacy has been gaining traction in the workplace as a skill and tool to better identify occupational hazards that could lead to safety incidents. This presentation will provide background and preliminary results of a new research collaboration between the Campbell Institute and the Toledo Museum of Art to demonstrate how visual literacy relates to occupational safety. The visual literacy training has already proved fruitful for Campbell Institute organizations participating in a pilot study that launched in early 2018. This session will present the ways in which organizational participants have implemented visual literacy into their existing safety procedures and processes, and the changes that have resulted from "learning to see" and better detecting hazards.

BEGINNER

6F: WORKERS' COMP TRACK: BENEFITS OF JOB DESCRIPTIONS AND HOW TO WRITE THEM

Rachael D. Neff - Attorney
Smith, Mills & Schrock Law - Cedar Rapids, IA

This session will address the benefits of writing accurate and complete job descriptions, and provide a brief workshop on how to write a good job description. Job descriptions are a critical component from both a legal and practical point of view. A job description will help ensure you have a qualified candidate filling each open position, from both a physical and educational background. We will discuss how an accurate job description can help you reduce the number of workers' compensation claims brought by employees, and help guide you in bringing injured workers back to their pre-injury position.

11:50 AM - 1:30 PM | ANNUAL AWARDS LUNCHEON

CLOSING SESSION - LORRAINE M. MARTIN

PRESIDENT & CEO - NATIONAL SAFETY COUNCIL

A Vision for Safety Leadership in 2020 and Beyond
Join National Safety Council President and CEO Lorraine Martin to examine the leadership challenges and hidden risks in today's changing work environments, including the role of technology and automation, workplace impairment and more. Drawing from her three decades in the aerospace industry, Lorraine will offer insights on what it means to be a safety leader in a world where everything is in flux, and where safety plays a key role from the workplace to anyplace.

11:50 AM - 1:30 PM • AWARDS LUNCHEON & CLOSING SESSION

THIS SPECIAL EVENT HONORS RECIPIENTS OF THE IOWA-ILLINOIS SAFETY COUNCIL SAFETY AWARDS.

Award recipients will be able to take their photo anytime Friday morning or after the closing session.

CLOSING SESSION

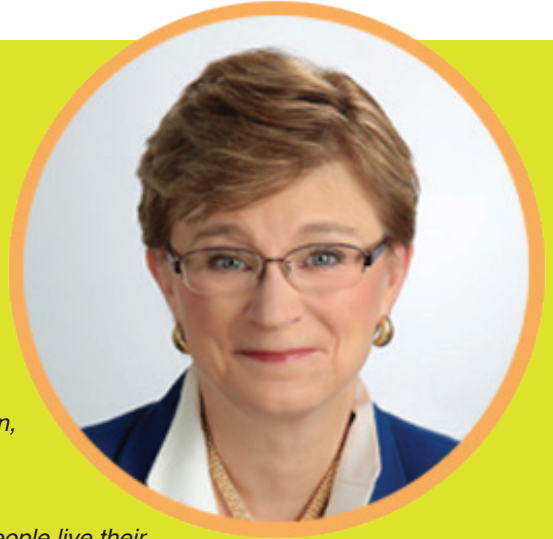

LORRAINE M. MARTIN

President & CEO - National Safety Council - Itasca, IL

Lorraine Martin is the president and CEO of the National Safety Council, a nonprofit with a century-long legacy of eliminating preventable deaths and injuries from the workplace to anyplace.

Throughout her 35 years of experience in aerospace, including leading and developing global and international businesses as an executive at Lockheed Martin, Lorraine has been singularly focused on showing up for safety and supporting employees to reach their full potential.

As a leader of the National Safety Council, Lorraine is passionate about helping people live their fullest lives. She is the chair of the Road to Zero Coalition, with more than 900 organizations focused on eliminating roadway fatalities by doubling down on proven measures, advancing technology and building safe systems. She is spearheading national conversations on eliminating workplace fatalities through promising technologies, addressing impairment and safety leadership.

IISC'S SAFETY AWARD PROGRAM

Hazard Control Recognition Award | President's Award | Community Enrichment Award

APPLICATIONS ARE DUE FEBRUARY 21, 2020

Visit www.iisc.org/safetyawardsprogram for complete details on how to apply for the IISC Safety Awards. Questions or application submissions can be sent to heather@iisc.org.

Award applications must be received by the end of day on February 21, 2020. Late submissions will may not be accepted. All member companies that submit an award application will receive a confirmation email. Contact Heather at heather@iisc.org or 515-276-4724 ext. 230 if you have not received a confirmation. Send all award submissions to heather@iisc.org.

REGISTRATION INFORMATION (REGISTRATION FORM ON NEXT PAGE)

Register by March 30 to receive the EARLY BIRD discount!

Not a member?

Contact Heather at heather@iisc.org to find out how you can register at the member price and **SAVE!**

WEDNESDAY FEE

Must choose session at time of registration. CLASS SIZE IS LIMITED.

Course - (Lunch included)	Member	Not-yet-a-member
8HR: Fundamentals of Rigging (8 hour)	\$350	\$650

HOW TO REGISTER

Register online at

www.iisc.org

Or register by:

Email: iiscadmin@iisc.org • Fax: 515-276-8038

Phone: 515-276-4724

**(please do not send your credit card
information through email or fax)**

Or send form and payment to:

Iowa-Illinois Safety Council
1501 42nd St. STE 100
West Des Moines, IA 50266

If you do not receive a confirmation of your registration within a few days after registering, please email dawn@iisc.org.

Cancellation Policy

Cancellations without penalty may be made up to three working days prior to the conference date. Cancellations after that date will be charged 50% of the fee. You may avoid this charge by transferring your registration to another person. Registrants who do not cancel are liable for the entire fee

ALL REFUNDS WILL BE IN THE FORM OF A CREDIT VOUCHER.

IISC'S 67TH ANNUAL PROFESSIONAL DEVELOPMENT CONFERENCE & EXPO
USE #IISCPDC2020 WHEN POSTING OR SHARING ABOUT THE CONFERENCE!

DOOR PRIZE INFORMATION

Any company that would like to donate door prizes, please bring them to the registration desk Thursday morning. **THANK YOU!**

Each attendee will be added to our electronic 'prize wheel' and door prizes will be drawn throughout the day on Thursday. Once a name is selected it will be added to our prize board. You'll want to stop by the Expo Hall during each break to see if your name was drawn! Door prizes include fun gifts from our participating vendors and companies that attend the conference. Attendees that completed their Exhibit Passport have a chance to win PREMIUM door prizes on Friday during the Awards Luncheon. You must be present to win.

CEU INFORMATION

General CEU information (cost and amounts) will be available at a later date.

SHRM Professional Development Credits (PDCs)

Iowa-Illinois Safety Council is recognized by SHRM to offer Professional Development Credits (PDCs) for the SHRM-CP® or SHRM-SCP®. This program is valid for 16 PDCs for the SHRM-CP® or SHRM-SCP®. For more information about certification or recertification, please visit www.shrmcertification.org. Only specific sessions are valid for PDC credit. Cost information will be available at a later date.

Certified Safety Professional (CSP) Continuance of Certification (COC) points for Certified Safety Professional (CSP) may be claimed by attending this Professional Development Conference & Expo, as authorized by the Board of Certified Safety Professionals. For more information please go to bcsp.org.

Certified Industrial Hygienist (CIH) Certification Maintenance (CM) points for Certified Industrial Hygienist (CIH) may be claimed by attending this Professional Development Conference & Expo, as authorized by the American Board of Industrial Hygiene. For more information please go to abih.org.
